

Visit your Community Recycling Centre today and help build a healthy environment for our future.

Not all household waste can be put in your kerbside bins. Community Recycling Centres offer a **FREE** and **EASY** solution for the disposal of household problem waste such as paints, gas bottles, motor oils, batteries, smoke detectors and fluorescent globes and tubes. Many of these materials can be reused and recycled if processed correctly. Recycling helps our environment because it saves water, energy and natural resources.

How to recycle other household items:

-  Visit www.cleanout.com.au to find your nearest CleanOut event to safely dispose of your **household chemicals**.
-  Return **unwanted medicine** to your local pharmacy for safe disposal.
-  Recycle your **mobile phone** with Mobile Muster. Visit www.mobilemuster.com.au
-  Drop off your **used or empty laser and inkjet printer cartridges** at participating Australia Post, Officeworks, JB Hi-Fi and Cartridge World stores.
-  Go to www.recyclingnearyou.com.au to find out where you can drop off **TVs, computers or printers** for recycling.
-  Businesses are not eligible to use the Community Recycling Centres. Find out where to recycle **business waste** at www.businessrecycling.com.au
-  Recycle **plastic bags** and other **soft plastic packaging** at major supermarkets. Visit www.redcycle.net.au for more information.

This project is a NSW Environment Protection Authority Waste Less Recycle More initiative funded from the waste levy.

Community Recycling Centres

The right place for your problem waste
